SKILLS

- ❖ Java
- ❖ HTML, CSS, Javascript, React
- ❖ Node.js, Express.js
- ❖ MongoDB, SQL
- ❖ Bootstrap CSS, Tailwind CSS

EDUCATION

- ❖ BE IT | Government Engineering College, Gandhinagar CGPA: 8.09
- ❖ XII (GSEB) | Ramkrishna Vidhya Bhavan, Surat 76.8% | 2022
- ❖ X (GSEB) | Ramkrishna Vidhya Bhavan, Surat 82.3% | 2020

EXPERIENCE

- ❖ NO

ACADEMIC PROJECTS

- ❖ **Project Title –** *Wanderlust*
- ❖ **Project Description:**
Developed a full-featured travel listing and review web application with secure user authentication and a clean, responsive UI. The platform allows users to explore, create, and manage listings, post reviews, and upload images seamlessly.
- ❖ **Key features include:**
 - User Panel: Browse listings with map integration, create/edit/delete personal listings, post reviews and view listing details with image galleries.
 - Admin/Owner Features: Moderate listings and reviews, manage user access, and handle listing content with complete CRUD capabilities.
 - Security: Implemented session-based authentication and role-based access control using Passport.js.
 - Integrations: Utilized Cloudinary for secure image uploads and Mapbox for interactive maps.
 - Architecture: Built using MVC pattern with modular routing, middleware, and robust error handling.
- ❖ **Live demo on:** [wanderlust](#)
- ❖ **Tools Used:**
 - VS Code, Git, GitHub, MongoDB Atlas, Hoppscotch, Cloudinary
- ❖ **Technologies Used:**
 - Frontend: EJS, Bootstrap, HTML5, CSS3
 - Backend: Node.js, Express.js
 - Database: MongoDB (Mongoose)
 - Authentication: Passport.js
 - Image Storage: Cloudinary
 - APIs & Libraries: Mapbox API (for maps), Express-Validator, Method-Override, Express-Session, Connect-Flash
